

About me

About me

I have a degree in Veterinary Medicine, to graduate I wrote an experimental dissertation on gundogs welfare. As you might guess, I am interested in behavioural medicine and in everything that falls within “preventive medicine” such as nutrition, complementary medicine (I studied veterinary acupuncture) and anything related to working and sport dogs.

I got my first English Setter in 1999 and my hunting licence in 2003 when I also started to follow dogs during hunting days and fieldt trials.

I have a regular column in a few Italian hunting/shooting magazines and I also collaborated with some foreign ones. In 2004 I was asked by an Italian publisher to write a book on

Setters.

I trained my dog personally and I handle her a trials by myself.
